

Operations

Helping you rapidly transform your business

Act now to recover

Many industries will see lower top-line revenue and need to adjust their cost-base and reshape their business to deliver sufficient returns.

We can support you with your urgent short-term cash needs, tactical medium-term cost reduction, as well as delivering a strategic view of what is required to ensure drive a strong recovery for your business.

Supply chain resilience

Assessment and support

- Supply chain mapping & analytics
- Logistics and security
- Distributors, agents and resellers
- Critical labour availability
- Digital operations and cyber security
- ESG compliance
- Contract and commercial
- Claims and losses

Managed exits

Assessment and support

- Options analysis including strategy development and planning
- Monitoring and controlling wind down projects
- Coordinate closing out the myriad of financial, tax, regulatory, legal and administrative issues
- Liquidation

Corporate simplification

Reducing complexity

- Identify and deal with legacy issues
- Close dormant or low activity legal entities
- Reduce complexity within a business
- Save costs and management time and costs from maintaining dormant entities
- Release tied up capital
- Improve attractiveness to third parties

Rapid cost reduction

Find and realise Quick Win savings

- Rapid multi-disciplinary cost reduction programmes, run typically within a 6-8 week period, focussed on savings that can be realised within 6 months
- Rapid action that leads to liquidity improvement
- Buys time to then focus on broader Cost Based Transformation.

Cost based transformation

Enterprise-wide cash / cost release

- CBT is a way to self-fund stabilisation or growth of the business through rapid release of cost and cash
- Enterprise-wide focus on right-sizing a cost base to support strategic priorities or current reality
- Continual focus on implementation to quickly build up a cash buffer for reinvestment in further savings
- Give clients more time and confidence to withstand the crisis and its aftermath

People & organisation

Workforce issues

- Advice on people-related risks, costs and plans relating to restructuring and change programmes
- Review, summarise and implement cost-reduction and efficiency saving options
- Access to employment law and other legal advice

Chief Restructuring Officer

Skilled, experienced support

- Experienced individual(s) are placed into organisations to work alongside management
- Expert support in the rapid development and execution of successful restructurings
- We also have access to a network of experienced independent turnaround professionals if PwC are unable to take on roles directly
